

PWCS FAMILY ENGAGEMENT SERIES

The PWCS Family Engagement Series is a virtual series that provides knowledge and resources of PWCS programs and services along with community partners to build the capacity of PWCS families. PWCS families register for each session using a Zoom registration. Language accommodations will be offered upon requests. All sessions start at 7 p.m. and are one hour in length. Below are the session topics for March 2023.

Dates	Session Topics
Session 1: March 7, 2023	Learning & Achievement for All: Math & Reading Family Support This session will focus on strategies for helping families best help their student(s) at home with reading and math. Participants will receive ten great ways to make doing homework better, make learning stronger and make academic interactions with your student(s) a happier experience.
Session 2: March 14, 2023	Learning & Achievement for All: Literacy and Writing resources for Elementary Students This session will focus on integrating listening, speaking, reading and writing using nonfiction text in elementary school. Resources will be electronically provided to families to support creating written responses to text.
Session 3: March 21, 2023	Positive Climate and Culture: Chronic Absenteeism & Dropout Prevention: Available Resources for Families This session will focus on opportunities for re-engagement and re-enrollment in an educational program/school that meets internal and external needs. PWCS re-enrollment and registration events, will be discussed to assist families with identifying academic needs for their student(s) and possibly themselves.
Session 4: March 28, 2023	Learning & Achievement for All: Literacy and Writing resources for Middle and High School Students This session will focus on integrating listening, speaking, reading and writing using nonfiction text in middle and high schools. Resources will be electronically provided to families to support creating written responses to text.
